

Monthly Progress Report
for the
Former Satralloy Site
Cyprus Amax Minerals Company
4243 County Road 74, Mingo Junction
Jefferson County, Ohio 43938

Reporting Period: May 2026

This Monthly Progress Report (Report) contains a summary of activities that have occurred during the above-referenced month, under the Consent Order for Preliminary Injunction to Conduct a Remedial Investigation and Feasibility Study between Cyprus Amax Minerals Company (Cyprus Amax), et al. and the State of Ohio dated November 3, 2010 (COPI), at the Former Satralloy Site (Site). Reports summarize activities within the monthly reporting period and are submitted to the Ohio Environmental Protection Agency (OEPA) via the OEPA portal by the 10th day of every month. Copies of daily reports, inspection reports, sampling data and laboratory data, etc. will be provided to OEPA upon request.

Section 1 – Project Plans

This section identifies the status of each plan developed for or permit obtained for the project. It also contains summaries of all changes made to the Interim Action (IA) Workplan and Remedial Investigation/Feasibility Study Workplan (RI/FS Workplan) during the reporting period, if any. If changes were made, a description of evidence of consultation with OEPA and the date of approval by OEPA for those changes will be provided as required by Section XI.26.e of the COPI.

1. Interim Action Workplan (IA Workplan)

None during this reporting period.

2. Preliminary Evaluation Report and Remedial Investigation/Feasibility Study Workplan (RI/FS Workplan)

None during this reporting period.

3. General Industrial Storm Water Permit

None during this reporting period.

4. General Construction Storm Water Permit

The permit status did not change during this reporting period.

5. Quality Assurance Project Plan (QAPP)

No amendments to the QAPP were made during this reporting period.

6. Meetings

Details of all meetings between Cyprus Amax and OEPA are set forth in Section 7.

Monthly Progress Report

For the Former Satralloy Site

Reporting Period: May 2026

Section 2 – Work Status

This section discusses the Work completed, as required by Section XI.26.A of the COPI.

1. Work Completed

Interim Action

- Slag consolidation operations continued through May, including relocation and placement within the Former Mine Area.
- Daily visible emissions monitoring was completed in accordance with the Fugitive Dust Work Practice Plan and the Permit-to-Install and Operate.
- BMP inspections and maintenance were completed in accordance with the general construction storm water permit.
- Excavation of borrow areas in the Former Mine Area continued with the clean fill transported and placed in the Lowlands to backfill slag removal areas.
- Construction and demolition debris (C&DD), including former railroad ties, were transported offsite to an approved disposal facility.

RI/FS

- None during this reporting period.

Treatability Study

- None during this reporting period.

Investigations

- None during this reporting period.

General Industrial Storm Water Permit

- None during this reporting period.

General Construction Storm Water Permit

- Weekly BMP inspections and maintenance were completed.
- Samples for the general construction storm water permit were collected on May 6, 2026.

2. RI/FS Percent Complete Estimation

Monthly Progress Report

For the Former Satralloy Site

Reporting Period: May 2026

- None during this reporting period.

Section 3 – Schedule

A list of all target and actual completion dates for each element of activity followed by an explanation for any deviation from any applicable schedule is provided below, as required by Sections XI.26.b. and c. of the COPI.

- See Section 4.

Section 4 – Projected Work for Next Reporting Period

A list of projected Work for the next reporting period is provided below, as required by Section XI.26.j of the COPI.

- Slag removal and consolidation into a stockpile in the Former Mine Area of the Site will continue during June 2026.
- Visible emissions monitoring will continue in accordance with the Fugitive Dust Work Practice Plan.
- BMP inspections and maintenance will continue pursuant to the general construction storm water permit.
- Excavation of borrow areas in the Former Mine Area with the clean fill transported and placed in the Lowlands to backfill slag removal areas will continue during June 2026.

Section 5 – Summary of Findings and Sampling Data

This section contains a summary of all findings and sampling during the reporting period, as required under Section XI.26.d of the COPI. The following laboratory reports were submitted to OEPA:

- Laboratory analytical results from May 6, 2026, construction storm water sampling were submitted to OEPA on May 14, 2026.
- Laboratory analytical results from April 14, 2026, sampling of liquids in the found oil skimmer were submitted to OEPA on May 15, 2026.
- Attached to this report are Table 1 and Figure 1, showing the sampling status of soil confirmation grids. The figure shows grids across the Site, whereas the table presents a reduced list of grids where sampling has occurred.

Monthly Progress Report

For the Former Satralloy Site

Reporting Period: May 2026

Section 6 – Material Handling

This section contains a summary of the quantity of media treated, removed, or contained pursuant to the reporting requirement, if any, as set forth in the Scope of Work (SOW). It will also contain a summary of the disposition of contaminated soil, sediments, and waste material that was treated on or off site, or the disposal location for any quantity of contaminated ground water and/or surface water that was pumped and treated or disposed, if any, as required by Sections XI.26.l. and m. of the COPI.

- See Section 2.

Section 7 – Community Relations

This section will contain a summary of all contacts with representatives of the local community, public interest groups or government agencies during the reporting period and not described elsewhere in this Report, as required by Section XI.26.f of the COPI.

- On May 13, 2026, representatives from the OEPA visited the Site and met with representatives of Cyprus Amax. They observed Site operations, including slag removal and consolidation.
- On May 15, 2026, a representative from the Jefferson County Engineer's office visited the Site and met with representatives of Cyprus Amax. They observed the culverts along County Road 74 and discussed future access to them by the County.
- On May 21, 2026, a representative from OEPA visited the Site and met with representatives of Cyprus Amax. They observed Site operations, including slag removal and consolidation.
- Based on mutual agreement, representatives of Cyprus Amax and OEPA will hold project status calls on an as needed basis.

Section 8 – Issues and Actions

This section will contain a summary of the problems (issues) or potential problems encountered during the reporting period, including those which delay or threaten to delay completion of project milestones with respect to the approved workplan schedule, as required under Section XI.26.g. Each issue is followed by a summary of the actions taken or planned to rectify the problem, as required under Section XI.26.h.

- None for this reporting period.

Monthly Progress Report

For the Former Satralloy Site

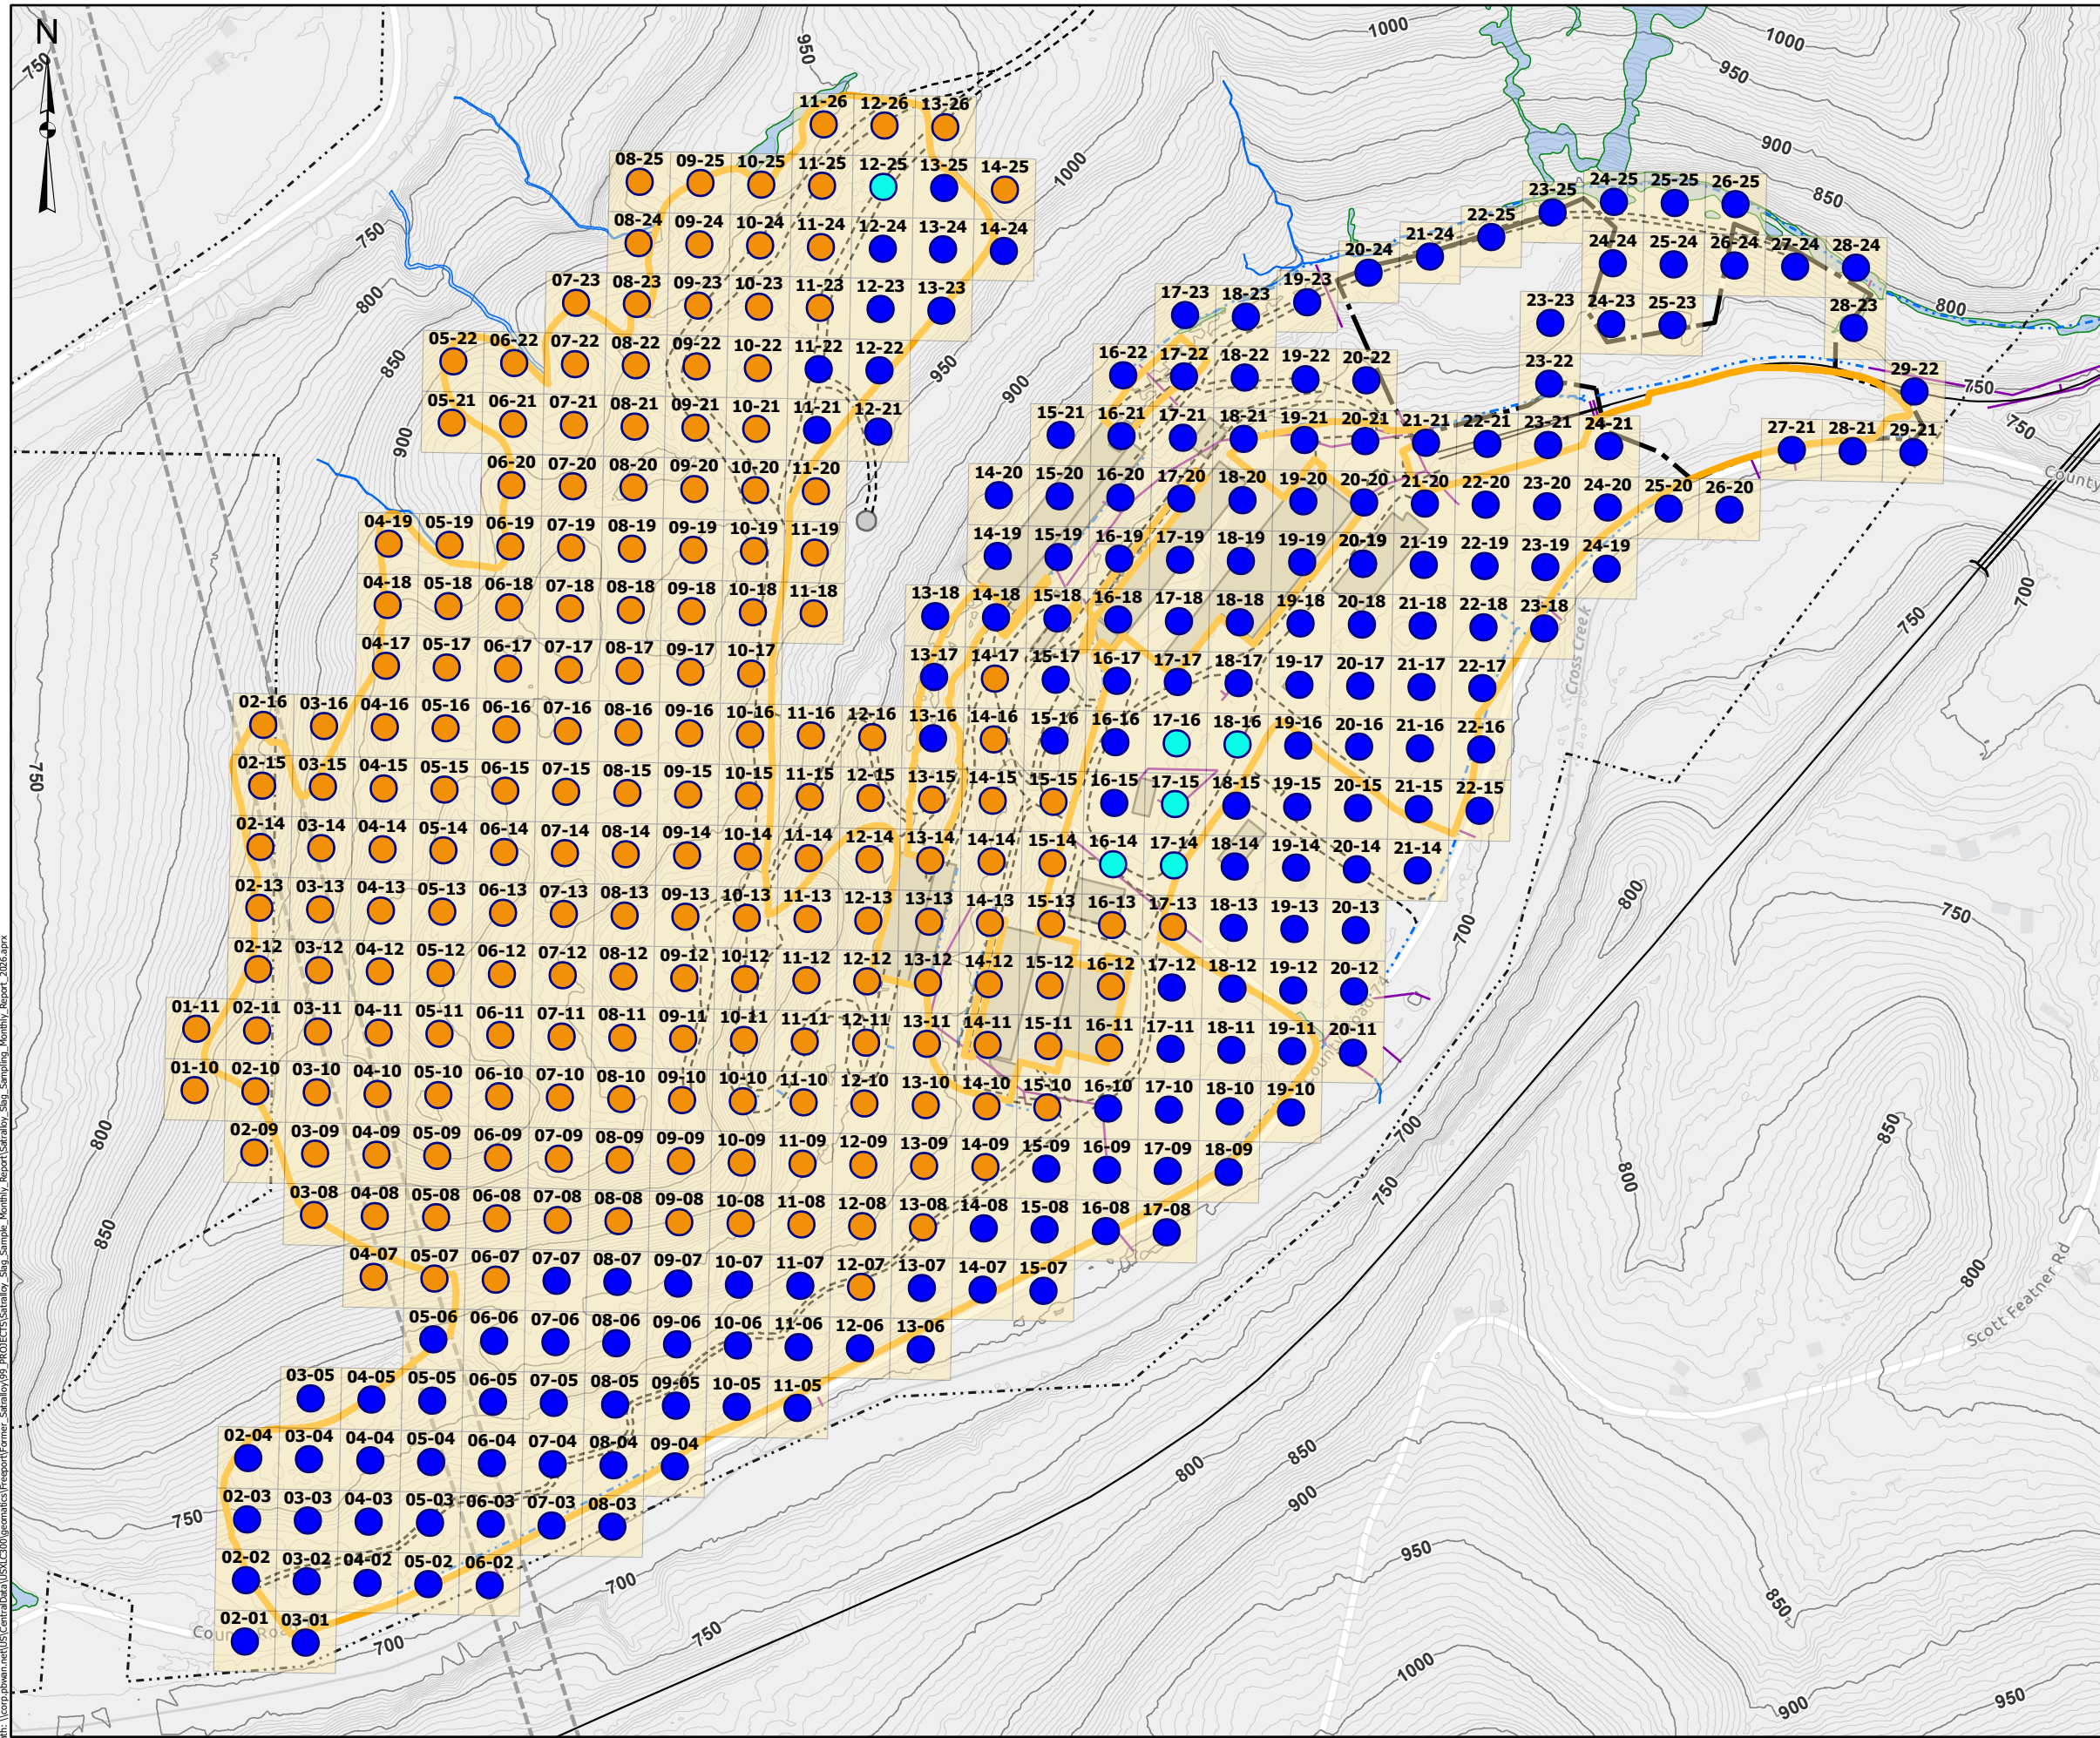

Reporting Period: May 2026

Section 9 – Other OEPA Notifications

Key Personnel Changes

Changes in key personnel during the reporting period are summarized below, as required by Section XI.26.i of the COPI.

- None for this reporting period.

LEGEND

- Planned Sample Location
- Results Below Criteria (Cleared)
- Results Below Criteria (Partial Clearance)
- Results Above Criteria
