**Re: Ohio EPA Approval - Workplan for Phase 2 Mine Area Investigation
Jefferson County, Former Satralloy Site**

Dear Ms. Nielsen:

Ohio EPA has reviewed the *Workplan for Phase 2 Mine Area Investigation*, submitted on February 1, 2021 by Golder Associates on behalf of Cyprus Amax Minerals Company. We have also reviewed the Cyprus Amax response to Ohio EPA's follow-up email dated February 24, 2021, requesting additional information on the plans for monitoring well installation.

Ohio EPA hereby approves the workplan. We note the workplan contains minimal details on some of the described tasks, particularly Quality Assurance/Quality Control (QA/QC). We may request additional information as the results of this work are subsequently evaluated and submitted for Ohio EPA review.

Please feel free to contact me with questions or concerns at (740) 380-5244 or kevin.ohara@epa.ohio.gov.

Sincerely,

Kevin O'Hara
Geologist
