Steve,

I have reviewed the request for decommissioning well MW-103. You may consider this email as approval for that work.

Sincerely,
Kevin

Subject: Satralloy - Request Well MW-103 Decommissioning

Kevin – good afternoon. On behalf of Cyprus Amax, attached is a letter requesting approval for decommissioning groundwater monitoring well MW-103 at the Former Satralloy Site. This is to facilitate possible further slag consolidation during the interim action in the area of the well. If Cyprus Amax decides to pursue an expansion of the slag stockpile, Ohio EPA review and approval of the expansion will be requested.

Please let us know if you have questions about the decommissioning of MW-103.

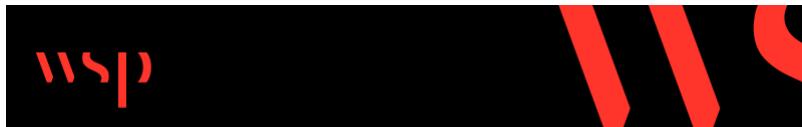

Kind regards,
Steve
