**Subject: Ohio EPA Approval – Workplan for Completing Mill Building Floor
Sampling**

Dear Ms. Nielsen:

On September 2, 2022, the Ohio EPA Division of Environmental Response and Revitalization (DERR) received the *Workplan for Completing Mill Building Floor and BUSTR Delineation Sampling*, for the former Satralloy facility in Jefferson County, Ohio. The workplan was submitted by Golder on behalf of Cypress Amax Minerals Company.

Ohio EPA has no comments on the sampling proposed for the Mill Building floors, and approves that portion of the workplan. Please note that Ohio EPA does not have jurisdictional authority to approve sampling plans related to Cyprus Amax's BUSTR obligations. Based on our September 26, 2022, conversation, I understand that the portions of the workplan related to BUSTR sampling were provided for informational purposes only, and that Cyprus Amax is following BUSTR guidance for that part of the sampling program.

If you have any questions, please contact me at (740) 380-5244 or kevin.ohara@epa.ohio.gov.

Sincerely,

Kevin O'Hara
Geologist
Division of Environmental Response and Revitalization
